PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3+ years building enterprise web applications using Angular, Python (FastAPI), and Microsoft SQL Server. Azure-certified developer (AZ-204) specializing in cloud deployment, RESTful APIs, and AI/ML integration. Delivered scalable solutions in Agile environments with 40% performance improvements.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, SQL, HTML5, CSS3
- **Frontend:** Angular 16/20, RxJS, Angular Material, Bootstrap — **Backend:** Python (FastAPI), RESTful APIs, Microservices
- **Testing:** Jasmine, Karma, Unit Testing — **Database:** Microsoft SQL Server, SQL Optimization, SQLite
- **Cloud & DevOps:** Azure (AZ-204 Certified), Azure DevOps, CI/CD Pipelines, Git — **AI/ML:** Azure OpenAI, Google Gemini, NLP

PROFESSIONAL EXPERIENCE

Software Engineer — IntegraConnect, Bangalore **Apr 2024 – Present**

- Developed production-grade Angular and FastAPI applications with SQL Server, serving 50+ enterprise clients in healthcare/finance
- Led AI/ML POCs integrating Azure OpenAI and Google Gemini APIs, reducing manual processing time by 30%
- Architected RESTful APIs and microservices handling 10,000+ daily requests with 99.9% uptime
- Mentored 3 junior developers on Angular, API development, and testing, improving code quality by 35%
- Deployed applications on Azure using CI/CD pipelines with OAuth2 and RBAC security implementation
- Optimized Angular performance using lazy loading and RxJS operators, reducing load time by 45%

Programmer — IntegraConnect, Bangalore **Aug 2022 – Mar 2024**

- Built responsive Angular applications with RxJS, Angular Material, and RESTful APIs integrated with SQL Server
- Developed Jasmine/Karma unit tests achieving 85% code coverage, reducing production bugs by 40%
- Optimized SQL queries with indexing strategies, reducing response time by 40%
- Automated workflows using Python scripts, cutting errors by 25% and saving 15 hours/week
- Collaborated in Agile teams with UX designers and product managers to deliver business-aligned features

KEY PROJECTS

AI-Powered Denial Management System **2024–2025**

- Engineered ML pipeline predicting healthcare claim denials with 87% accuracy for revenue cycle management
- Built FastAPI microservices processing 5,000+ claims daily with real-time AI predictions
- Developed Angular dashboard with Chart.js visualization, reducing decision-making time by 50%
- **Tech:** Python, FastAPI, Angular, Azure OpenAI, SQL Server, Machine Learning

Insurance Claim Management System **2023–2024**

- Designed full-stack Angular/FastAPI application improving workflow efficiency by 35% for medical coders
- Implemented optimized SQL stored procedures reducing data retrieval time by 50%
- Automated claim validation with Python, reducing errors by 20% and increasing throughput by 40%
- Deployed on Azure App Service with CI/CD pipelines enabling zero-downtime deployments
- **Tech:** Angular 16, Python, FastAPI, SQL Server, Azure, Azure DevOps

EDUCATION

B.Tech. in Computer Science and Engineering **2018 – 2022**

Dr. Babasaheb Ambedkar Technological University | CGPA: **9.42/10**

CERTIFICATIONS & ACHIEVEMENTS

- **Microsoft Certified Azure Developer Associate (AZ-204)** — Generative AI Essentials (Educative)
- Promoted to Software Engineer within 20 months; delivered AI POCs adopted by 10+ enterprise clients
