PROFESSIONAL SUMMARY

- High-performing Full Stack Engineer with 3+ years of experience architecting scalable enterprise applications.
- Specialized in building high-concurrency microservices using FastAPI (Python) and responsive, data-intensive UIs with Angular 16+.
- Microsoft Certified (AZ-204) expert in Cloud deployment and AI integration.
- Proven track record of optimizing SQL performance by 50% and delivering AI solutions that reduce manual operational workflows by 30%.

PROFESSIONAL EXPERIENCE

IntegraConnect | Software Engineer

Bangalore | Apr 2024 – Present

- Architecture & Scale:** Architected RESTful APIs and microservices (FastAPI/Angular) handling 10,000+ daily requests with 99.9% uptime.
- AI Integration:** Led AI/ML POCs leveraging Azure OpenAI and Google Gemini for predictive analytics, reducing manual data entry efforts by 30%.
- Performance & DevOps:** Optimized Angular dashboard load times by 45% using lazy loading, and deployed secure Azure CI/CD pipelines.

IntegraConnect | Associate Software Engineer

Bangalore | Aug 2022 – Mar 2024

- Full Stack Development:** Developed responsive Angular/SQL applications and Python automation scripts, cutting human error rates in operational workflows by 25% and saving 15 hours/week.
- Database Optimization:** Optimized SQL Server queries and implemented composite indexing for large-scale datasets, reducing response time by 40%.

KEY TECHNICAL PROJECTS

AI-Powered Denial Management System

2024

Tech: Python, FastAPI, Azure OpenAI, Angular

- Engineered an end-to-end Machine Learning pipeline that predicts healthcare claim denials with 87% accuracy, allowing finance teams to preemptively correct errors.
- Built a real-time notification system using WebSockets to alert users of potential denials instantly.
- Processed 5,000+ claims daily by implementing asynchronous task queues using Celery and Redis.

Insurance Claim Management System

2023

Tech: Angular, FastAPI, SQL Server, Azure DevOps

- Designed a full-stack automated workflow that reduced claim processing time by 50%.
- Orchestrated secure CI/CD pipelines on Azure DevOps, implementing OAuth2 security and enabling zero-downtime deployments.

TECHNICAL SKILLS

Languages:	Python (Advanced), TypeScript, JavaScript (ES6+), SQL, C#.
Frontend:	Angular 14/16+, RxJS, NgRx (Basics), HTML5, CSS3/SCSS, Bootstrap, Angular Material.
Backend:	FastAPI, RESTful API Design, Microservices Architecture.
Database:	Microsoft SQL Server (T-SQL, Stored Procedures).
Cloud & DevOps:	Azure, Docker, CI/CD Pipelines, Git.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science and Engineering | Dr. Babasaheb Ambedkar Technological University (CGPA: 9.42/10) | 2018-2022

Infosys Springboard Internship 5.0 | Advanced Software Development | Jul 2024 - Aug 2024

Agentic AI Expert | Educative.io | 2026

Generative AI Essentials | Educative.io | 2024

Microsoft Certified: Azure Developer Associate (AZ-204) | Microsoft | 2023
